CERTIFICATE OF TRANSMISSION

I hereby certify that this paper and the documents referred to as being attached or enclosed herewith are being filed with the United States Patent and Trademark Office by facsimile transmission to 703-872-9306 on February 4, 2004.

Mark L. Becker
Attorney for Applicants**RESPONSE**

Applicants respond to the Office action mailed 10/23/2003, as follows.

one of the multiple ones of the base transistor structures, arranged immediately adjacent to another, is configurable to provide gate isolation for active transistors in other ones of the base transistor structures." The claimed gate isolation is electrical isolation provided by tying the separate gates of an intermediate base transistor structure to VDD and VSS, as explained in the amended paragraph. In contrast, the isolation described in Shaw is the physical isolation of transistors' diffused regions (sources and drains). Col. 29, lines 37-45 and the Abstract.

Shaw further does not disclose the limitations of dependent claims 7-17 or of new claims 21-22.

For the above reasons, applicants submit that the present claims are in condition for allowance, and respectfully request such action.

Please call the undersigned if he can be of any assistance in this case.

Respectfully submitted,

Date: 2/4/2004
